c. Describe the purpose of this DoD information system or electronic collected in the system.	llection and describe the types of persona	al information about individuals				
The AFSV-FA system is the result the need for global Force Support Squadrons to deliver 24/7 building/IT-based access to fitness centers for authorized patrons. The system allows facility managers to dictate the information collected at a minimum the system requires a users name for registration. Once this information is collected the system generates a FASC-N ID which is a unique ID not associated with the federal employees common access card. Information collected: Name, Home/Cell Phone, Official Duty Telephone Number, Personal Email Address, Other ID Number d. Why is the PII collected and/or what is the intended use of the PII? (e.g., verification, identification, authentication, data matching, mission-related use,						
administrative use)						
PII collection is for verification, authentication and administrative for NAFI mission-related use. AFSV-FA system users must abide by Public Law 93-579, 5 USC 552a, 93rd Congress, S. 3418, The Privacy Act and Department of Defense (DoD) Directive 5400.11, DoD Privacy Program concerning the protection of Privacy Act information. Failure to comply may lead to administrative actions being taken. The purpose for collection is to verify the individual's identification and eligibility to access the local fitness facility beyond normal duty hours as outlined in AFI 34-266, Fitness, Sports, and Worldclass Athlete Program, para 3.1.3.3.						
e. Do individuals have the opportunity to object to the collection of their PII?						
(1) If "Yes," describe the method by which individuals can object to the collec	tion of PII.					
(2) If "No," state the reason why individuals cannot object to the collection of	PII.					
At the point of initial collection, patrons can opt-out of providing required information. Patrons who opt-out can not receive service. Personal data collected is voluntarily given by the authorized patron of the fitness facility verbally at each installation. The patron is allowed to make an informed decision about providing data as required by 5 U.S.C. 552a(e)(3). The attendant advises the individual that the information provided is voluntary and provides consequences of choosing not to participate with the information collection process. Individuals may raise an objection with the Air Force Privacy Act office during the public comment period of the Privacy Act system of records notice (if applicable or during the data collection). The authorized patron of the fitness facility initiates the collection request and maintenance of his/her information for the purpose of providing information to the fitness facility to gain access to the building after normal operating hours. Authorized patrons of the fitness facility may object to the collection of their PII, but then will not be granted access to use the fitness facility beyond normal duty hours.						
f. Do individuals have the opportunity to consent to the specific uses of their PII?						
(1) If "Yes," describe the method by which individuals can give or withhold their consent.						
(2) If "No," state the reason why individuals cannot give or withhold their consent.						

At the point of initial collection, patrons are provided an opportunity to verbally consent. At this point, patrons can agree or disagree. Failing to consent, patrons will not receive service.						
Personal data collected is voluntarily and verbally given by the authorized patron of the fitness facility at each Fitness Facility, at each installation. As required by 5 U.S.C. 552a(e)(3), the patron can make an informed decision about providing the data. The attendant advises the individual that the information provided is voluntary and provides the consequences of choosing not to participate with the information collection. Individuals may raise an objection with the Air Force Privacy Act office during the public comment period of the Privacy Act system of records notice (if applicable or during the data collection). The authorized patron of the fitness facility initiates the collection request and maintenance of his/her information for the purpose of providing information to the fitness facility manager to gain access to the facility after normal operating hours. Authorized patrons of the fitness facility may object to the collection of their PII, and if an objection is made, the patron will not be granted access to use the fitness facility beyond normal duty hours. All authorized patrons of the fitness facility agrees in order to participate in the after duty hours access program for the installation fitness center. If patrons want to access the facility after hours of operation, they are advised that the data collection is the minimum data that must be collected that would facilitate data entry into the building and is to support the registration process, which then allows patron access when data is entered into AFSV-FA. Patrons are advised that the data in whole must be collected so that access can be granted. To ensure access, patrons are advised that verbal consent is needed for the the collection and usage of their data for system and procedure processing, in whole, rather than in part, then access is granted to the facility after hours. g. When an individual is asked to provide PII, a Privacy Act Statement (PAS) and/or a Privacy Advisory must be provided. (Check as appropriate and
