**c. Describe the purpose of this DoD information system or electronic collection and describe the types of personal information about individuals collected in the system.**

The Military Personnel Data System (MilPDS) production environments are the system of record for all Air Force military personnel and is the primary system for Air Force personnel actions. It is a commercial-off-the-shelf (COTS), Oracle Enterprise Business System (EBS) based product and is the "total force" personnel data system, encompassing active, guard, and reserve components. The system supports all lifecycle personnel management functions, including recruiting, accessions, promotions, job assignments, education and training, and separation/retirement from the service. MilPDS provides real-time updating and reporting capabilities using web and relational database management technologies. MilPDS production environments are located within the DISA Ogden data center.

MilPDS development and test environments are cloned of the MilPDS production environment and used for the development and testing of functional, and non-functional changes prior to migration to the MilPDS production environment. Additionally, MilPDS development and test is the designated contingency plan alternate site location in the event a MilPDS system outage occurs that is expected to exceed the Maximum Tolerable Downtime of greater than 48 hours. MilPDS development and test environments are located within the DISA Montgomery data center.

The following Personally Identifiable Information (PII) is maintained within MilPDS production and MilPDS development and test: Citizenship, Home/Cell Phone, Mailing/Home Address, Military Records, Official Duty Address, Place of Birth, Race/Ethnicity, Work E-mail Address, Birth Date, Education Information, Financial Information, Marital Status, Mother's Middle/Maiden Name, Official Duty Telephone Phone, Position/Title, Rank/Grade, Security Information, DoD ID Number, Emergency Contact, Gender/Gender Identification, Legal Status, Name(s), Religious Preference, Social Security Number (SSN) (Full or in any form), Home of Record, Place of Enlistment, Date of Enlistment, Place of Entry to Active Duty, Education and Training Data, Evaluation Data, Promotion Data, Compensation Data, Sustentation Data, and Separation and Retirement Data.

**d. Why is the PII collected and/or what is the intended use of the PII?** (e.g., verification, identification, authentication, data matching, mission-related use, administrative use)

The collected information is used to identify Airman, facilitate timely and effective lifecycle personnel activities, and document services provided.

(1) If "Yes," describe the method by which individuals can object to the collection of PII.

(2) If "No," state the reason why individuals cannot object to the collection of PII.

All personal data collected are voluntarily given by the subject individual. Forms that collect personal data to be maintained in this IT investment contain a Privacy Act Statement, as required by 5 USC. 552a(e), and in accordance with guidelines established in AFI 33-332,

Air Force Privacy and Civil Liberties Program, allowing the individual to make an informed decision about providing the data. The statement of understanding advises the individual that the information provided is voluntary and provides the consequences of choosing not to participate with the information collection.

f. Do individuals have the opportunity to consent to the specific uses of their PII?  Yes  No

(1) If "Yes," describe the method by which individuals can give or withhold their consent.
